*İNtuition: an immense unexplored potential,  
life's İNtelligence,  
self-İNsight as Syntony*

## 'consciousness-&-self' evolving

An advanced Program for educators, teachers, managers, communicators, parents, medical doctors, therapists, coaches, counselors, professionals, students: experience the uniqueness of life's intelligence in syntony with the immense creative potential of our *unexplored* intuition & intuitive insight

The İNIN Project's Network in 62 Nations

*İNIN is a leap which allows us "to experience directly this connection, this Holos, this deeper reality in which we are all inserted." "...a crucial evolutionary step, a vast and fascinating prospect."* **Ervin Laszlo**

*"The İNIN path is a new access to Cognitive processes..."*  
*"... a unique transdisciplinary exploration ... – a vision consistent with the systemic conception of life ..."* **Fritjof Capra**

## The ÌNIN MASTER COURSES

(*INTuition: an immense unexplored potential, life's INTelligence, self-INSight*)

train to foster the evolution of '*consciousness-&-self*',

based on life's INTelligence (inherent in life)

in syntony with \*the immense potential of our *unexplored* INTuitive holistic INTelligence, \*self-INSight, \*systemic vision, \*wondering & INTuitive sensibility

→ which develop ° answers coherent with the arising needs,

° cre-*a(c)tions* and transform-*a(c)tions* that (do not request energy, but) *offer energy*,

° as well as knowledge as syntony, in an enlightening co-evolving.

The program is based °on unexplored intuitive ana-logical (beyond linear logic) approaches of evaluation & research, °on coherence with the vital aesthetic, °on syntony with collective intelligence & vital consciousness → which induce advanced creative-evolutive processes: personal, social, environmental, systemic.

### Profile

► It is a highly innovative master program which develops °intuitive sensibility, °an unexplored self-insight, °an advanced holistic intuitive intelligence, where consciousness is \*the fabric of reality, \*the theatre of our daily experiences, \*the extraordinary potential of our intuitive comprehending, re-thinking limits, grasping new innovative perspectives.

► ÌNIN MASTER integrates the quantum vocal sound with the self, and with the self-insight.

► It launches an *analogic (beyond linear logic)* language, and generates a local-and-nonlocal understanding based on vital consciousness and collective intelligence.

► ÌNIN MASTER cultivates the extraordinary intuitive potential of '*knowledge as syntony*', as aesthetic experience of co-belonging, as resonance in phase, as the creative-evolutive process of life itself.

► It trains the experience of *being created* and oriented by the eloquence of '*life's intelligence*' and by '*self~conscious~ness*', while *creating* a coherent-enlightening designing, innovating, co-evolving.

► **The ÌNIN MASTER COURSES are intended** for persons dedicated to an enlightening systemic co-creating, co-evolving, co-habiting the Earth, open to experience the uniqueness of life's intelligence as well as the immense potential of our unexplored intuition, which brings us both to live new relationships, new dialogues, an enlightening understanding, and to mindfully foster the evolution of '*consciousness-&-self*'

## A direct all-in-one ÌNIN MASTER experience:

**CONSCIOUSNESS THEATRE** is a stage play which presents the themes of the ÌNIN Master Courses as a unique experience, where the evolving consciousness is the fabric of reality, the theatre of our daily experiences, the extraordinary potential of our intuitive comprehending, re-thinking limits, grasping new innovative perspectives

## Study Plan

- **Personal Growth & Skills:** The courses integrate steps of **personal growth** and steps of acquisition of **skills**.
- **3 Levels of study:** The ÌNIN Master Programs are scheduled to develop 3 levels of skills: **basic - advanced - master**.
- **Course attendance** involves several blocks of 4 to 10 hours each, developed through individual or group sessions, and spread during the calendar year.
- **Duration and developments** of the courses are determined by the levels of the acquired skills: basic - advanced - master.  
The developments are individually agreed and arranged with each participant, based upon:
  - previous studies and already developed skills
  - individual needs interests and goals
- **Calendar:** the activities are scheduled to start in the 2° week of January each year. Individual studies can start at any point during the year.
